

Dr. Beatriz Raya

Specialties

Ophthalmology

LASIK

Corneal Surgery

Dr. Beatriz Raya is an ophthalmic surgeon who has served pediatric and adult patients with eye problems in the Matamoros area for the past 4 years. She attended the UAT School of Medicine in Matamoros and completed her residency in Ophthalmology and Ophthalmic surgery at the Hospital Universitario (UANL) in Monterrey. Dr. Raya's practice ranges from the first grader that needs an eye exam and a prescription for glasses to the grandmother who suffers from cataracts, glaucoma or diabetic retinopathies. She performs corrective eye surgery with LASIK, is up to speed on the use of new medications such as the anti-angiogenic intra-ocular vaccines for diabetic retinopathy and is fellowship trained in the most modern photoemulsification techniques for cataract surgery. Additionally, Dr. Raya has a special interest and experience managing eye problems related to rheumatoid conditions such as arthritis. Dr. Raya is a believer in providing multidisciplinary care which often times requires the assistance of other specialists to help manage a patient's diabetes, cholesterol and blood pressure.
