

Dr. Francisco Rubio

Specialties

Obstetrics & Gynecology

Dr. Francisco Rubio has served patients in the Matamoros area for over 19 years. He attended medical school at the Universidad Autónoma de Nuevo Leon and completed his residency in Obstetrics and Gynecology at the Hospital Universitario de Nuevo Leon in Monterrey. During his residency he completed a rotation in reproductive biology and minimally invasive surgery at the Woman's Hospital of Texas in Houston. His practice focuses on providing prenatal care, preventative women's care as well as treatments for infertility, precancerous lesions, uterine myomas, uterine bleeding, endometriosis, breast fibroadenomas, osteoporosis and depression. Dr. Rubio has a special interest in helping women (and their spouses) navigate through the hormonal roller coaster rides experienced during the peri-menopausal years.
